

Knowledge grows

YaraMila™ COMPLEX™

Completeness

Every prill of YaraMila™ contains total N, P, K nutrition. The YaraMila™ Complex product also contains sulphur, magnesium and micronutrients.

Balanced Source of nitrogen

YaraMila™ products include a balance of nitrate and ammonium nitrogen, making the products significantly more effective than urea or ammonium based fertilizers per unit of nitrogen.

Unique phosphate

Yara's nitrophosphate production process gives YaraMila™ products a unique combination of polyphosphates and orthophosphates. These forms give greater availability of soluble phosphate to crops over a wide range of soil types.

Compete Potash

YaraMila™ COMPLEX is based on SOP, targeted for use on cash crops. This chloride free source of potash gives superior quality compared to standard MOP based NPK's.

Superior Handling

The YaraMila prill is specifically designed to allow easy and accurate spreading by machine or hand.

Benefits:

- *Balanced Nutrition in every prill*
- *Unique nitrophosphate production process*
- *Balanced nitrogen source*
- *Poly and Orthophosphate content*
- *SOP based potassium for chloride free product*
- *Rapid nutrient release*
- *Excellent handling and spreading characteristics*
- *Low dust in handling*
- *Proven quality*

Prilled NPK fertilizer	%
Total N	12.0
Ammonium-N (NH ₄)	7.0
Nitrate-N (NO ₃)	5.0
Total (P ₂ O ₅)	11.0
Total (K ₂ O)	18.0
Sulphur (S)	8.0
Magnesium (MgO)	2.7
Boron (B)	0.15
Iron (Fe)	0.2
Manganese (Mn)	0.02
Zinc (Zn)	0.02
