# YaraMila™ PALMAE™

### Completeness

Every prill of YaraMila™ PALMAE contains total N,P, K nutrition. Also contains Magnesium and Boron.

### Balanced source of nitrogen

YaraMila™ PALMAE include a balance of nitrate and ammonium nitrogen, making the product significantly more effective with the combination of immediate plant available Nitrate N-content and slower release of N-content from Ammonium.

### Unique phosphate

Yara's nitrophosphate production process gives a unique combination of polyphosphates and orthophosphates. These forms give greater availability of soluble phosphate to oil palms over a wide range of soil types.

### Effective potash

Source of potash gives superior quality and is fully watersoluble allowing efficient plant uptake.

### Superior handling

The YaraMila™ prill is specifically designed to allow easy and accurate spreading by machine or hand.

Complex NPK Fertilizer	%
Total N	13.0
Ammonium-N (NH <sub>4</sub> )	7.7
Nitrate-N (NO <sub>3</sub> )	5.3
Total (P <sub>2</sub> O <sub>5</sub> )	11.0
Total (K <sub>2</sub> O)	21.0
Magnesium (MgO)	2.0
Boron (B)	0.2

The information provided is accurate to the best of Yara's knowledge and belief. Any recommendations are meant as a guide and must be adapted to suit local conditions.

### Benefits:

- *Balanced nutrition in every prill*
- *Unique nitrophosphate production process*
- *Balanced nitrogen source  
Poly and Orthophosphate content*
- *Excellent handling and spreading characteristics*
- *Proven quality*
- *Specially formulated for Oil Palm*
